MOMBASA COUNTY.

RE: REQUEST FOR COMPLETION OF PERIMETER WALL AT KONGOWEA DISPENSARY IN THE 2025/2026 FINANCIAL YEAR.

Dear Dr.Sabaha Ahmed Omar,

Ajenda Kenya is a youth-led organization committed to addressing community challenges and amplifying local voices in Mombasa County. During a community engagement forum held on 2nd April 2025, we discussed the ongoing challenges faced by Kongowea Dispensary, particularly the stalled perimeter wall project. Despite a budget allocation of KES 4.9 million in the previous financial year, the project remains incomplete, resulting in ongoing security risks and privacy concerns for patients.

The lack of a secure boundary has led to exposure of patients to external disturbances, including noise from the surrounding community and unauthorized access to the facility. This situation compromises patient safety, healthcare delivery, and overall facility management. Given the critical role that Kongowea Dispensary plays in the health and well-being of the community, it is essential that the project be completed in the upcoming financial year.

We kindly request your urgent intervention to ensure that the necessary steps are taken to complete the perimeter wall and address related security and infrastructure issues. We also seek an opportunity to engage further with your office to discuss the next steps and ensure that this issue is prioritized in the county's development plans.

Your prompt response and commitment to resolving this matter will be greatly appreciated.

Yours sincerely,

Ajenda Kenya.
